EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Parker on ⁹ April 2007.

The application has been amended as follows: Cancel claim 55.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art applied in the office action mailed 21 November 2005, Wang (US 6,391,166), Weaver et al (US 6,471,913), Woodruff et al (US 2001/0032788), Harada et al (US 5,700,127), do not teach or suggest the features of independent claims 12, 22, 48 and 68. As indicated previously, the prior art, specifically Wang, does not teach the combination of a dielectric field shaping unit with an ion-exchange membrane substantially impermeable to fluids. Further, Applicant has amended the application to include a priority to claim to provisional application no. 60/294,690, filed May 30, 2001. Since the presently claimed invention is fully supported by the 60/294,690 application, the claim for priority is considered valid, and the present application is entitled to the earlier filing date. Thus, Wilson et al (US 2003/0038035) is no longer considered prior art under 35 USC 102(e) due to having the same effective filing date as the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
